APPROACH

The program covers all key dimensions of risk encountered in both financial services firms and in the finance function of non-financial businesses. Graduates of this program will enhance their academic capabilities and credentials in an area of expertise that is fundamental to sustainable performance of their organizations.

Ultimately, they will be ahead of the curve because they will have the capacity to understand and manage financial risk from a broad systemic and strategic perspective with a focus on enterprise-wide risk management. Graduates will also be equipped to be more adaptable as regulatory, compliance, or general risk management evolutions may occur.

WORLD RENOWNED FACULTY AND INDUSTRY LEADERS

Our students are exposed to world class faculty and industry leaders that have both depth of global expertise and real world experience. They have a solid understanding of the broader issues, ensuring the MS in Risk Management Program will be rigorous and relevant.

Program faculty are selected based on their expertise, and have a theoretical, research, and practical understanding of risk management.

Highlights of NYU Stern’s credentials are listed below:
- The NYU Stern Finance Department was ranked #1 by the Financial Times in 2012.
- Social Science Research Network rates NYU Stern #2 among the top 500 US business schools for user downloads of its research.
- Stern's Finance Department’s reputation consistently places it in the top 3 in U.S. News & World Report.

RISK MANAGEMENT IN APPLICATION

The Strategic Risk Capstone presented at the culmination of the program ties together the substantive content and practical case work taught throughout the year in a concrete risk analysis of the student’s choosing.

The Capstone process is a collaborative team effort of 4-5 students who build on their own professional experience and academic content exposure. This creates a meaningful project that demonstrates their ability to exude an integrated view of risk management.

FORMAT

The MS in Risk Management program is a one-year, part-time program divided into five on-site class sessions (modules) at NYU Stern in New York and two rotating global locations. The modules are spread out over two fiscal years, as the course is offered from May to May.

Our part-time format limits office leave to approximately 5 weeks over the course of the program. Between modules, students complete approximately 20 hours of work per week on pre- and post-module tasks. These assignments are conducted online through the program’s online distance learning platform, adding another layer of flexibility to the course structure.

CURRICULUM

Main focus areas of the curriculum include:

Foundations of Risk Management
- Pre-work prior to the start of the program designed to establish a common body of knowledge
- Equity and fixed income markets, derivatives, risk analytics, and statistical models

Key Risk Domains and Their Applications
- Credit risk, currency risk, enterprise risk, liquidity risk, market risk, operational risk, reputational risk and strategic risk
- Measuring and modeling risk and developing risk analytic metrics
- Stress-testing and back-testing of risk models and integration into firm strategies

The Risk Environment
- Qualitative side of risk management-Behavioral Finance
- Risk considerations in organizational design and corporate governance
- Risk as it impacts the global business environment
- Regulatory dimensions impacting risk assessment and control

Practical Components
- Strategic Risk Capstone
- Topical and relevant case discussions, exercises and simulations are integrated throughout
- Distance learning work relating to current risk management issues in practice

ACADEMIC PARTNERSHIPS

Upon completion of our MSRM program, alumni will be eligible for exemption from PRMIA’s Professional Risk Manager Certification (PRM™) Exams I and II (minimum 3.0 cumulative GPA to qualify).

The MSRM program is registered as an approved provider of Continuing Professional Education (CPE) credits with GARP. One educational hour is equivalent to one GARP CPE credit hour.

NYU Stern is an approved National Association of State Boards of Accountancy (NASBA) CPE provider. The MSRM program curriculum qualifies for CPE credits for Certified Public Accountants.

- Final Interview
- $103 application fee
- Apply on-line at: http://apply.embark.com/grad/nyustern/msrm/

DEADLINE:
Applications are reviewed on a rolling basis.

TO REQUEST AN INFORMATIONAL MEETING:
Submit a preliminary information form found here: http://nyusternglobalprograms.force.com/MSRM

RETURN ON INVESTMENT:
After completing the program, graduates are well prepared to follow a career in the challenging fields of risk management or build on new found credibility and confidence to provide critical risk management advisory services.

Financial institutions, regulators, governments, MNC’s and other specialist financial boutiques are in positions to utilize the skills acquired from this degree. You will be part of a workforce where there is a strong and growing demand for risk practitioners and advisors.

GLOBAL NETWORK:
Our highly accomplished and diverse alumni and student body reside throughout the world but have a shared interest and common dialogue around the topics of risk management. This provides students the opportunity to cross-learn and share best practices among current and past cohorts.

Upon completion of the program, graduates will join NYU Stern’s alumni network as part of earning a master of science degree issued by New York University.

GLOBAL MODULE LOCATIONS

In addition to our modules at NYU Stern, our rotating global locations allow us to draw on expertise of faculty and practitioners worldwide.
